Statistics of building and housing construction

In January-October 2023, the volume of construction work (services) amounted to 5281.2 billion tenge.

The largest amount of work in January-October 2023 was performed on the construction of facilities (2470.3 billion tenge), non-residential buildings (1969 billion tenge), and residential buildings (842 billion tenge).

The volume of construction and installation work in January-October 2023 compared to January-October 2022 increased by 9.5 and amounted to 4443.6 billion tenge. The volume of construction work on capital repairs increased by 42.1% compared to the corresponding period last year, while on current repairs it increased by 20.7%.

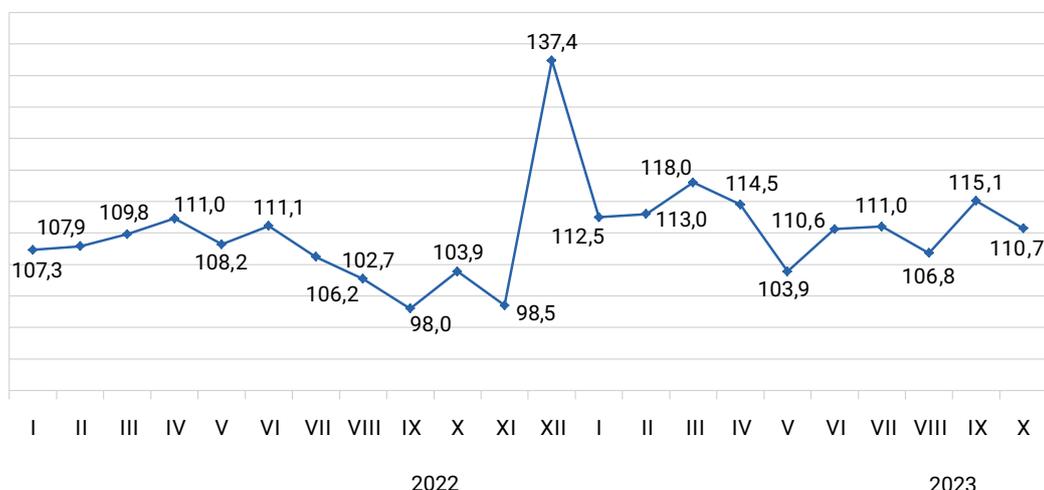

In January-October 2023, the construction of 31153 new buildings was completed, of which 29308 are residential and 1845 are non-residential.

The following social and cultural facilities were put into operation:

- secondary school - 60;
- preschool organizations - 32;
- hospital – 1;
- outpatient organizations - 19.

Indices of physical volume of construction

as a percentage of the corresponding month of the previous year

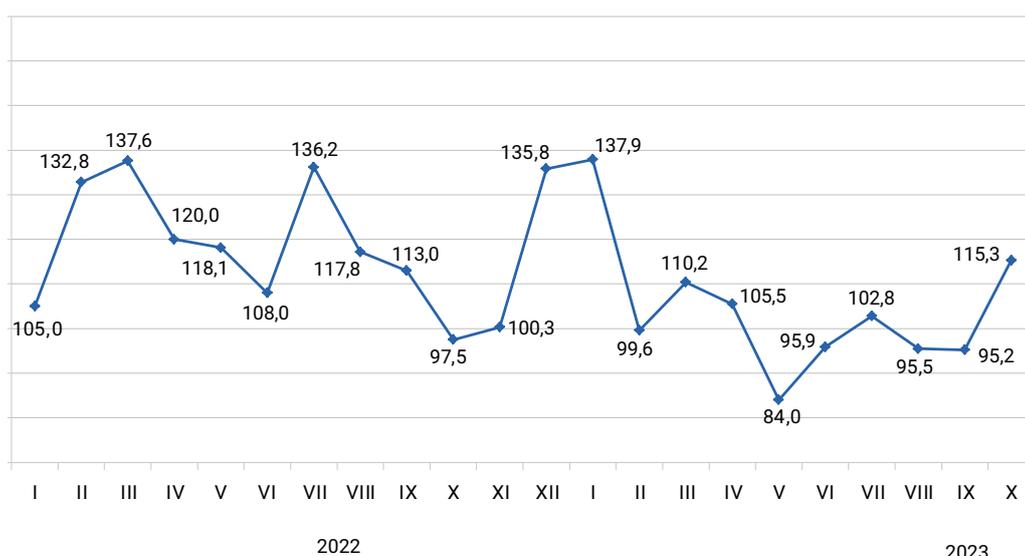

In January-October 2023, 2374.1 billion tenge was allocated for housing construction. In the total volume of investments in fixed capital, the share of disbursed funds in housing construction amounted to 17.8%.

The main source of financing for housing construction in January-October 2023 is the own funds of developers, the share of which is 88.5%.

Indices of physical volume of investments in housing construction

as a percentage of the corresponding month of the previous year

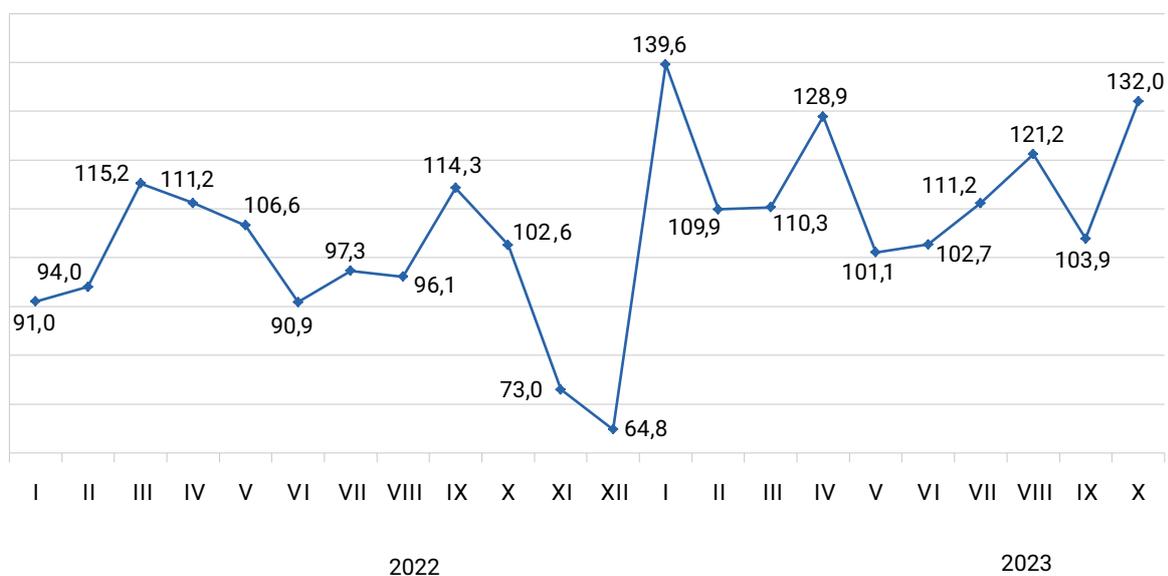

In January-October 2023, the total area of housing put into operation increased by 13.8% and amounted to 13337.3 thousand square meters, of which in multi-apartment buildings - by 25.4% (7972.1 thousand square meters). At the same time, the total area of individual residential buildings put into operation decreased by 0.3% (5293 thousand square meters).

In the total volume of commissioned housing, the share of multi-apartment buildings was 59.8%, individual - 39.7%. The average actual cost of construction of 1 square meter of total housing area increased by 18.8%.
