Statistics of building and housing construction

In January-November 2023, the volume of construction work (services) amounted to 5918.9 billion tenge.

The largest amount of work in January-November 2023 was performed on the construction of facilities (2782.5 billion tenge), non-residential buildings (2179.4 billion tenge) and residential buildings (957 billion tenge).

The volume of construction and installation work in January-November 2023 compared to January-November 2022 increased by 9% and amounted to 4981.9 billion tenge. The volume of construction work on capital repairs increased by 49.2% compared to the corresponding period last year, while on current repairs it increased by 23.6%.

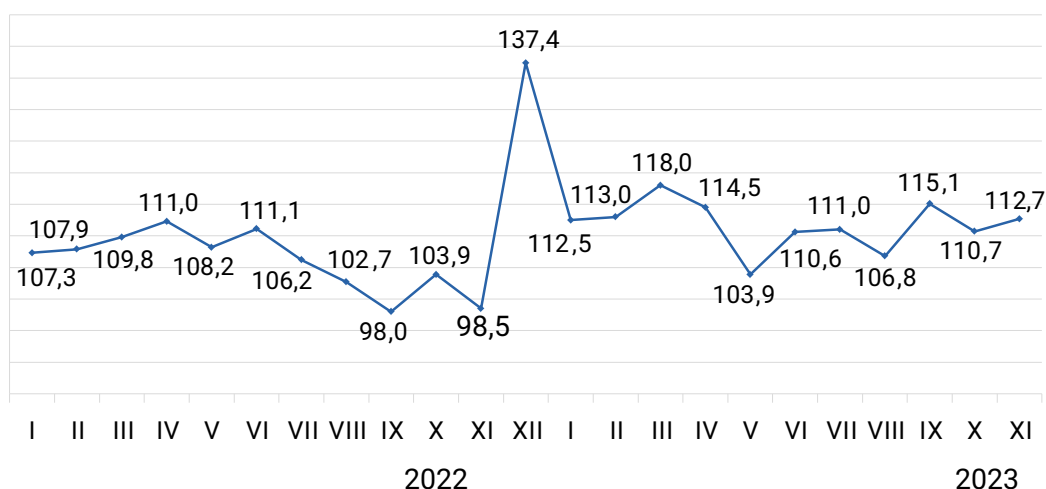

In January-November 2023, the construction of 34428 new buildings was completed, of which 32357 are residential and 2071 are non-residential.

The following social and cultural facilities were put into operation:

- secondary school - 70;
- preschool organizations - 44;
- hospital - 2;
- outpatient organizations - 31.

Indices of physical volume of construction

as a percentage of the corresponding month of the previous year

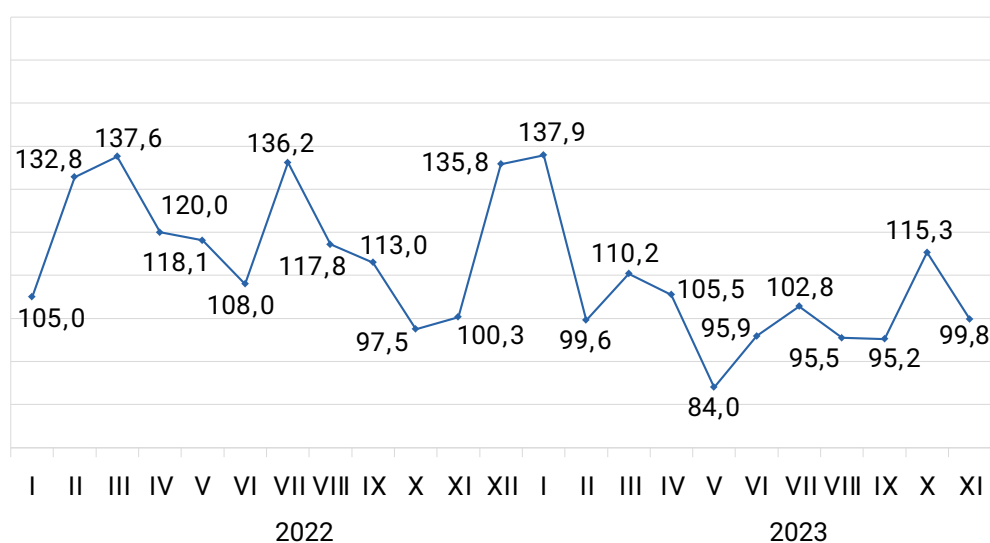

In January-November 2023, 2672.2 billion tenge was allocated for housing construction. In the total volume of investments in fixed capital, the share of disbursed funds in housing construction amounted to 17.5%.

The main source of financing for housing construction in January-November 2023 is the own funds of developers, the share of which is 88.4%.

Indices of physical volume of investments in housing construction

as a percentage of the corresponding month of the previous year

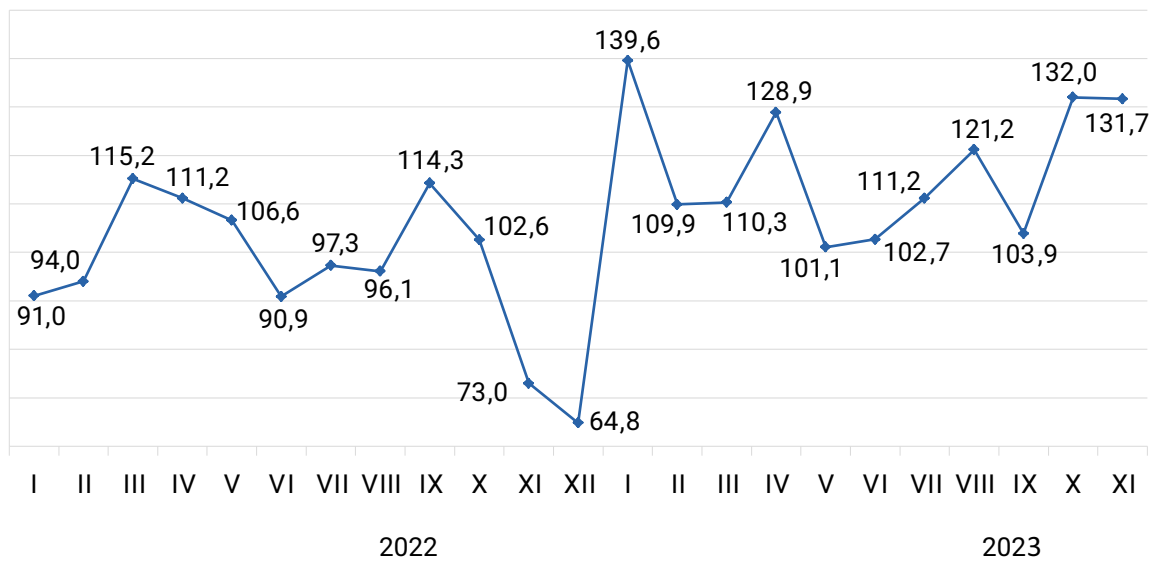

In January-November 2023, the total area of housing put into operation increased by 15.6% and amounted to 15067.2 thousand square meters, of which in multi-apartment buildings - by 28.5% (9107.9 thousand square meters). At the same time, the total area of individual residential buildings put into operation decreased by 0.5% (5862 thousand square meters).

In the total volume of commissioned housing, the share of multi-apartment buildings was 60.4%, individual - 38.9%. The average actual cost of construction of 1 square meter of total housing area increased by 18.6%.
